Color Waves

Multi Purpose

Color Waves is our designer-driven colour book series, designed to provide a complete room setting from drapery and bedding to upholstery and accents. The standout patterns from Color Waves this season include luxurious Belgian velvets, chic hand-block inspired prints with pleat detailing, and subdued upscale menswear looks.

Neutral Territory is a collection of must-have neutrals from pale eggshell and grey to deeper tones of zinc and walnut to warm things up.

Domino Effect is a bold and graphic combination of black and white with shots of ochre and gold.

Gardenia is inspired by the combinations of hues found in nature. Aqua, indigo blues and grass greens are accented with pops of tomato red and soft pink.
